

Enroll in the 401(k)... No PIN Needed!

The Teamster-UPS National 401(k) Tax Deferred Savings Plan website now allows eligible employees to enroll immediately upon employment with UPS, without waiting for an enrollment kit or Personal Identification Number (PIN).

If you're new to UPS, or you just haven't gotten around to joining the Plan, it is now easier than ever to enroll. Click on the link to the "Teamster-UPS National 401(k) Tax Deferred Savings Plan link and continue to "Enroll here without a PIN." Complete the requested personal information, deferral percentages, and select your investment options. Don't forget to select a beneficiary, print the beneficiary form, and mail it in.

You may also want to use the 401(k) calculator. It will allow you to model different contribution percentages and see the impact of pre-tax savings on your paycheck.

Once CitiStreet, the Plan Administrator, receives your demographic information from UPS payroll—generally within a week of your employment date—CitiStreet will post your online enrollment and notify payroll to begin your paycheck deductions. You will automatically receive your PIN in the mail from CitiStreet if you are a new employee. Please note that it is necessary to use your PIN for any future transactions. A PIN reminder can be requested through the Plan's website.
